HOW IT WORKS

4 steps, no waiting at the counter

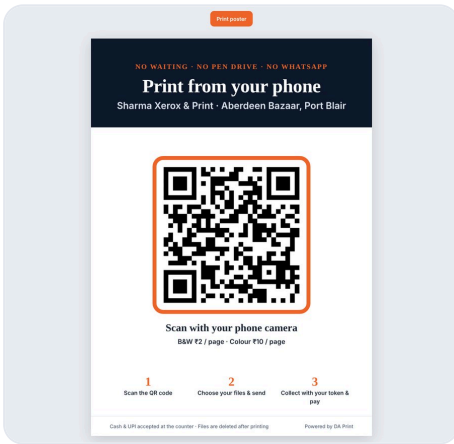

Set up in 10 minutes: print the QR poster, put it on the counter and run DA Print Desk on the computer with your printers.

1. **Customer scans your QR**
   The poster on your counter opens your shop's upload page in the phone browser. No app, no login.

2. **Sends the files**
   PDF, Word, Excel, PowerPoint or photos. Chooses print type, copies, both sides and pages – and sees the price.

3. **You accept – it prints**
   The order rings on your computer. One click and DA Print Desk prints it on the right printer.

4. **Collect with token & pay**
   The customer's phone shows "Ready" with the token. Pay cash or UPI at your counter.

FOR YOUR CUSTOMERS

Easy on any phone

- **All common files** – PDF, Word, Excel, PowerPoint, photos, or a photo of a document
- **Your print types** with your prices – e.g. B&W ₹5, colour ₹15, photo paper ₹80
- Copies, **both sides**, page range like 1-3,5
- **Live price** before sending
- **Token number** and live status: Sent → Accepted → Printing → Ready
- **UPI button + QR** with the exact amount, to your own UPI ID
- Chooses **how long files are kept** – or "Delete my files now"

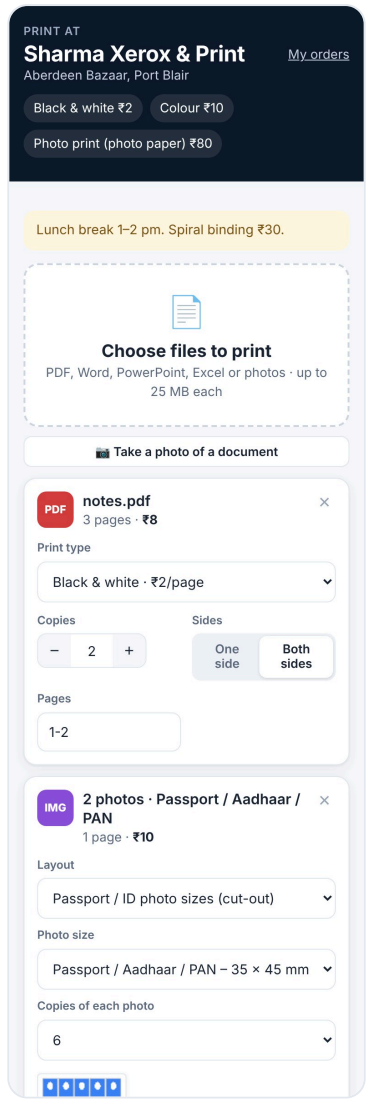

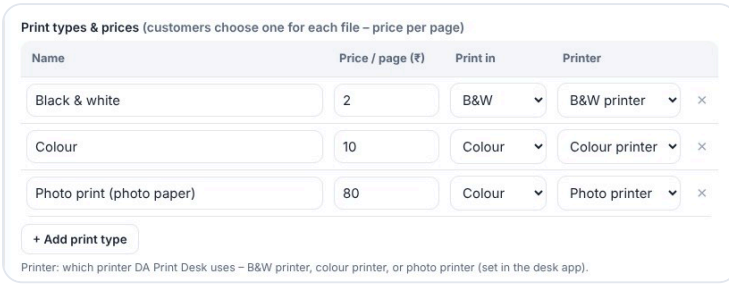

PHOTO LAYOUTS

1 / 2 / 4 per page · Passport 35×45 · Visa 51×51 · Stamp 25×30 · ID card 86×54 · Aadhaar front + back

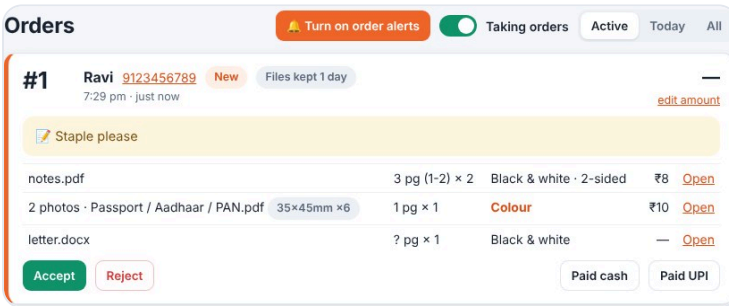

FOR THE SHOP

Web dashboard

Open print.datpl.com/dashboard on any computer or phone.

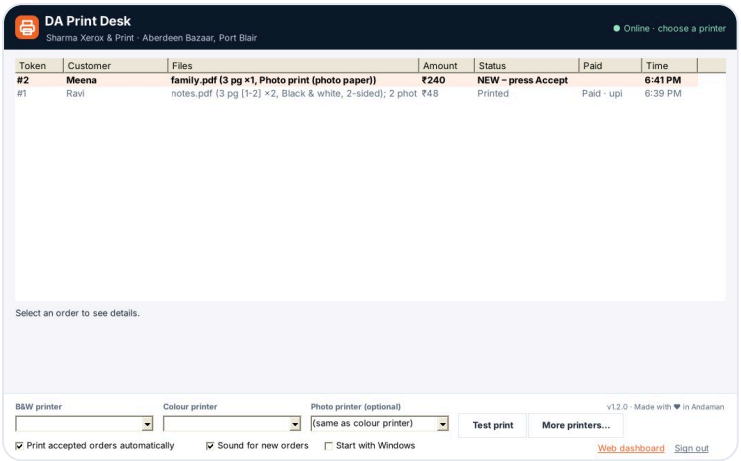

- ✔ **Order alerts** – notification and a loud chime until you accept
- ✔ Accept, reject with reason, open the file, **print again**
- ✔ **Paid cash / Paid UPI**, change the amount
- ✔ **Print types & prices** – add as many as you need
- ✔ Keep files **2 hours, 1, 3 or 7 days**; auto-accept; pause online orders
- ✔ **Daily report** – orders, pages, cash, UPI, unpaid
- ✔ A4 **QR poster** and a **TV token screen**; more than one shop on one login

DA PRINT DESK · WINDOWS

Prints by itself

A small Windows app (no install) on the computer connected to your printers.

- ✔ **Auto-prints** accepted orders – B&W on the B&W printer, colour on the colour printer
- ✔ **Any number of printers** – choose a printer for each print type (photo paper, A3…)
- ✔ **One printer only?** It asks you to load photo paper first, then reminds you to put plain paper back
- ✔ Word, Excel, PowerPoint printed through Microsoft Office or free LibreOffice
- ✔ **Pop-up + chime** for every new order, even when minimised
- ✔ Counts the real pages so the price is right; **update notice** for new versions

PRIVACY & PRICE

Simple and safe

- Files go **only to your shop** and are stored privately
- **Deleted automatically** – after printing, or after the days you and the customer chose
- Customers don't need to share their phone number
- Payment stays between you and your customer – **no commission**
