Reminders
by Digital Arts · free for Windows

Never miss medicine, calls or meetings. Your reminders live next to the clock.

A small free Windows app. Click the bell next to the clock, add as many reminders as you like, tick the days, pick a tone – done.

⏰ As many reminders as you like
Name, time, on/off switch and delete – all on one screen.

📅 Tick the days
Mon to Sun – every day, weekdays only, or just Sunday. No day = one time.

🔔 A tone for every reminder
Bell, Temple bell, Digital beep, Birds, Melody – or your own MP3. ▶ to listen.

🕒 Opens from the clock
The panel shows the time, date and your next reminder with a countdown.

💤 Snooze or dismiss
Big popup at the bottom-right. Tone keeps playing until you act (max 3 min).

🚀 Starts with Windows
Runs quietly in the tray. Missed reminders during a short sleep still ring.

🪶 Tiny and offline
Under 1 MB, nothing to install, no internet, no account, no ads.

🔒 Private
Your reminders stay on your own computer.
